

We are proud to partner with the

a n i n d u s t r y - f u n d e d n o n - p r o f i t

Because we care about the environment and want to do as much as we can to preserve it, we proudly participate in the Thermostat Recycling Corporation's Mercury Thermostat recycling program.

You can drop off the mercury containing thermostats you collect at your job sites with us and we ship them back to TRC for proper disposal. It may seem like a small thing but in reality it's not. Because since their founding they've recycled over 1,000,000 thermostats and kept more than 4.9 tons of mercury out of the waste stream.

Call our office for details and to find out how easy it is to recycle mercury thermostats with us.
