TRC Names New Executive Director

Alexandria, Va. (March 2, 2016) — Thermostat Recycling Corporation's (TRC) Board of Directors is pleased to announce the appointment of current TRC Director of National Accounts, Ryan Kiscaden, as Executive Director effective immediately. The Board's announcement is supported by the TRC membership with a continued expectation of extended producer responsibility stewardship and complete confidence in Ryan's abilities to lead the organization's efforts.

"Ryan brings significant understanding of the vital role each stakeholder plays in achieving the goals of TRC. Together with his extreme professionalism and industry knowledge, we are confident that TRC's program will continue to be strengthened to maximize results," said Dan O'Donnell, TRC Board Chair.

Ryan joined TRC in January 2014 as the corporation's Director of National Accounts, previously working for APR Supply Company as their Business Development Manager. Ryan has a BA in Business Administration from Elizabethtown College and a master's degree in Business Administration (MBA) also from Elizabethtown College.

About Thermostat Recycling Corporation

Thermostat Recycling Corporation, founded in 1998, is an industry-funded non-profit corporation supported by 29 manufacturers who historically branded and sold mercury thermostats in the United States. TRC maintains a network of more than 3,600 collection sites nationwide and has recovered more than 2.1 million thermostats, 10 tons of mercury, since its inception. TRC assumes all costs to transport and properly dispose of mercury switch thermostats recovered from service. Learn more about TRC by finding us on [Facebook](#), or following us on [Twitter](#).
